STRATHCONA, ALBERTA, SATURDAY JULY 25 1908

No. 64

How The Marathon Was Won

As he arrived on the field the royal standard was broken out on the flagstaff, the massed brigade bands struck up the National Anthem, and eighteen thousand troops came to the present to the son of Edward

This afternoon Sir Frederick Borden received a congratulatory letter from Sir Arthur Bigge, querry to the Prime, expressing appreciation of the men and horses reviewed and stating he was well aware that the conveyance of so large a body of men and horses must have entailed much labor in its organization, as well as personal sacrifice on the part of officers and men.

He toppled round the final lap, collapsing twice in the Stadium. Rising amid encouraging cheers, he collapsed utterly fifteen yards out from the finish, and was assisted to cross the tape, being carried over. Hayes, the American, entered the stretch a minute behind Hefferon, South Africa was third. He collapsed at the finish, and was carried to his room.

Peace River Crop Prospects

As far as a fur catch is concerned Mr. Coward said that this year was undoubtedly a failure even to a greater extent than last year. But the scarcity of furs was only temporary and the catch would probably begin to increase next year.

Protested

Ottawa, July 24.—P. D. Ross, member of the Canadian Olympic Committee is indignant at the action of Leslie Boyd, of the Amateur Athletic, Longboat's entry in the Marathon race. He regards it as absolutely dishonourable in view of the agreement between the government bodies.

"I intend to call for Boyd's resignation," said Mr. Ross. "Either he leaves the committee or I will drop out myself."

To Cleanse The Yukon

The final blow against the Yukon road has been struck. Jack Mc Crimmon has been sentenced to thirty days at hard labor for running a dance hall. Judge Dugas in imposing the sentence stated that a longer term would be imposed on the next conviction.

The Bridge Canard

story. A few easy people would have loved it. The Chronicle understands the Bulletin's attitude towards Strathcona and knows it is dictated by the Hon. Frank Oliver's antipathy to this city. It is a pity, however, that in this campaign a little more intelligence is not used. One very prominent citizen remarked to us that "There must be something wrong with the head of a reporter who could imagine the C.P.R. going ten miles out of their way and asking leave to cross a Grand Trunk bridge." The story was a pure scandal and only shows that in its effort to give a black eye to Strathcona the Edmonton Bulletin will go any length.

Edmonton Bulletin report you as saying you were considering C.P.R. crossing Saskatchewan via. Clover Bar Grand Trunk bridge instead of high level bridge here. Is there any truth in report?

J. J. Duggan,
Mayor.

I examined entrance to Edmonton and their bridge over Saskatchewan at Clover Bar for purpose of comparing with this company's entrance and crossing of river. We will abide by our plan of crossing and entrance

W. Whyte

After The Blackhands

Boston, Mass., July 24.—Following a thrilling chase of four hours in automobiles, two more bandits, one whom wounded and both of whom heavily armed, were captured shortly after noon to-day.

The arrests were the result of a sixty-mile beat by the police of the country side in two automobiles. The prisoners capture by the automobiles started to fight, but there were enough officers to subdue them. Vient searched revolvers razors and knives were found upon them. It is believed that two more are still at large and the police are beating the woods and thickets of Arnold Arboretum, Mount Benedict, the Oak Hill district and Charles River meadows for them.

Baseball

Edmonton Again Defeats The Locals

Last evening at the Agricultural Park the Young Liberal Baseball team of Edmonton defeated the local team in a fair game of baseball by a score of 6 to 3. McLaughlin was on the slab for the locals and pitched a good game, but the support he got was not up to the mark. The locals were on easy chances and the most of Edmonton's runs were scored on errors. Vining dispensed the curbs for the Capital boys, and held the locals safe nearly all the way. He was good with men on base, but he let himself down in the eighth, when he had three Edmontoners on base. He pitched a gem, and threw first blood in the third on a succession of errors by Hall and Maloney, scoring three, and again three, scoring the same number in the eighth, the locals insisting in the ninth. The Strathcona scored their trio of off hits in the first, half of the eighth, and the Capital White Sox in the eighth completely. "Snapper" Garrison of Edmonton, made a satisfactory umpire. Score by innings.—Edmonton 0 3 0 0 0 0 3 3 3 Strathcona 0 0 0 0 0 3 0 3 2 Batteries—Edmonton, Vining and Gossell; Strathcona, McLaughlin and Gossell.

Encampment Struck By Lightning

Gettysburg, Pa., July 24.—As the result of a terrific electrical storm which passed over Pennsylvania National Guard encampment here to-night, it is reported that at least six troopers were killed and two severely injured, some of them seriously by being struck by lightning.

The tent occupied by Governor Stuart was blown down, as were a number of others. Several friends were sitting with Governor Stuart when his tent collapsed, but the party managed to hold the canvas and all escaped without injury. The camp is flooded and telegraph service is practically at a standstill.

The entire camp is panic stricken. The darkness is impenetrable and the men are wildly guessing about the whereabouts of the rivers of water being the injured. Every tent of battery B was blown down, but no one in the battery was hurt. The regimental guard tent of the 10th regiment was struck by lightning and forty men of company C were badly injured. The field hospital is full and men are lying about the camp waiting for aid. The Young Men's Christian Association tent, which was struck with men and women who had taken refuge from the storm, was burned to the ground and as far

CURRENT COMMENT

That travelling troupe of political acrobats the Marshall gang are giving entertainments in most of the towns of Central Alberta. Mr. Marshall manipulates the political machine and when he pulls the string the provincial ministers Messrs Cross and Finlay execute fan dances. Poor Mr. Finlay does not seem to appreciate it being a decent honest man and seems to be rather ashamed of his company and pine for the solitude of the hen roost and the company of the calves. The Attorney General is a horse of a different color being a machine politician at Mr. Marshall's own heart and during their joint peregrinations through Central Alberta Mr. Cross has given the Federal Government his services. Whether the method in which Mr. Cross has thrown himself into Federal Politics will prove profitable to him, we doubt. Mr. Cross would be much better employed in trying to explain away the school book Contract by which for ten years a "scab" employing American hood Trust takes in the dollars of the honest workman. He struts at poses and babbles over with dross when he narrates the lumber prosecution. The American Book Company have been convicted again and again but he cherishes them, his bosom. Why? The secret history of this may be written some time. Last week at a political meeting at Daysland the usual performance was given. We have been much amused by the flamboyant report in the Daysland Press. This paper was by way of being independent but when we glance at the "Synopsis of Cool Mining Regulations" we know that what Sir Richard Cartwright described as "Poisoning the Wells" has been in process and that the Daysland Press has got its scoundrelous publicity through the Cross having given it as his opinion that as a legislator he (C. W. Cross) was the last word in heaven born genius and pointed disparagingly at the Whitley Government which has just done the most striking thing in Canada, the meeting, pointed on to Mr. Finlay and his boss. The real part of the performance however, was Marshall. Mr. Marshall, Mr. Duncan Marshall of Ontario election notoriety. Probably he doubts when he thinks of his Allection. He, Politician of his description are rather out of favor in Ontario nowadays. According to the Daysland Press "On raising, this ever popular orator was given a hearty ovation, and applause was frequent and enthusiastic remarks." We know the kind of applause that met Mr. Marshall's type get. A couple of dollars distributed among a few hangers will cause whirlwinds of excitement. Mr. Marshall according to the Press devoted his time entirely to what the Tories had done twenty years ago and carefully avoided either practically or present politics. Everyone will observe that the present administration cannot be defended and that its followers do not attempt to do so. They bark back twenty years and try and draw comparisons. They would like to take all the credit for the material expansion of Canada. If the boy of three is heavier stronger and bigger when he becomes twenty there is it miraculous. The same applies to Canada. Mr. Marshall did not say one word with regard to the present affairs of the nation nor the doings of the present session. He was dumb as to the Aylesworth Attorney Act. He said nothing with respect to the Civil Service Expenses. He apparently had never heard of the Yukon scandal. He simply walked in

and out of a quarter of a century ago and asked his audience to believe he was talking modern politics. Evidently Mr. Marshall has a very exalted opinion of his own gall or a very indifferant opinion of the intelligence of his listeners or he would not attempt this sort of rapping. We observe with interest that the meeting closed with the singing of the National Anthem. We had an impression that the new get anthem would have been. In more this. We are led to believe that when sung by an enthusiastic audience it goes well. The refrain runs: With your eyes fixed on the dough, Onward Grater! onward go!

A LESSON IN MYTHOLOGY

Regina Standard

It is related in Grecian mythology that Auges, king of Elis, kept three thousand oxen in his stable for thirty years without having the accumulated filth removed. This condition was bad for the cattle. It was also unpleasant for the people of the Elisian capital and for the king himself, for the reek of the stables was abroad in the land, threatening a pestilence.

It was then that Hercules was called in to effect a cleaning up and removal of the nuisance. He accomplished the seemingly impossible task with speed and thoroughness and without soiling his hands. His method was a novel one. Hard by the stables flowed the clear, rapid river Alpheus, which had its source among the oak clad mountains of Arcadia. Hercules diverted the river and turned its flowing tide through the stables of Auges. The result was quick and magical. The accumulated filth was washed away, the stables were cleaned, the air of the capital became pure again, and the pestilence was averted.

More in number than the three thousand oxen of Auges are the cattle feeding at the public crib in the uncleared stables beside the Ottawa.

And such cattle! These do not bow their patient necks to draw the plow. Not for toil or use are they kept. Their only functions are to feed at the public trough and to foul the stables.

Lords of the herd are brooding ministers and members of parliament. Beside them stand the long interminable ranks of corrupt and careless civil servants, cozening contractors, rapacious race-kill men, greedy grafters, marauding middlemen and smirking sons-in-law.

But if the Augean stables have their counterpart at Ottawa, there are also some notable contrasts. Auges knew that his stable was in a shocking condition and wanted it cleaned.

He did not cloak the facts or deny that a fearful and loathsome nuisance existed in his capital, for which he was responsible. On the contrary he resolved at once to apply the remedy, called in the strongest, most resolute and most capable man in all the land and instructed him to clean up the premises.

But what did Laurier do when the stench of his stables, offending the nostrils of all the people, caused them to cry out that the nuisance must be abated?

He and his ministers for years denied that the stables were unclean, or that any nuisance existed.

Six hundred hiring newspaper editors seduced his denial, and affirmed that the stables were sweet and clean. They too were feigning at the public crib. But the reek of the odor was in the nostrils of the people and they cried out more and more that the stables were breeding a moral pestilence in the land and that some thing must be done.

Then Laurier appointed a commission to enquire into the corner of the pestilential area. They returned boding their noses and buried out that the half had not been told.

And then the six hundred hiring editors protested that the commissioners had a perverted sense of smell and affirmed that they themselves, fed from the same crib as the cattle in the stables, found that everything was sweet and clean and fragrant as the rosy vale of Cashmere.

For a brief space one little door of the stables was opened, the commissioner was shocked and retreated and the investigation was adjourned for months, and the hired band of free booting editors have since been busy proclaiming that no nuisance exists, and that the common report to the contrary is a lie.

Not thus are the Augean stables to be cleaned. Not by denial, not by commissions peeping in at side doors and holding their noses the while, not by the tainted evidence of the cattle themselves, can this great work be effected.

Auges will never do the work himself. It was under his control that the stables became foul. The task is Herculean and only a Hercules can direct it.

And—so runs the classic legend—the cleansing of the stables was followed by the downfall of Auges. The mighty spirit which purified the stables killed the king whose cattle had made them vile.

Duncan's Condition Powders

FOR HORSES, CATTLE SHEEP
HOGS.

On horses it acts marvellously; it gives a good appetite, a glossy coat, a loose hide, a healthy appearance and purifies the blood; even during hard work they gain flesh and spirit. It cannot be equalled for building up broken down horses that are out of sorts and making them sleek, fat and high spirited.

Take None Other—There Is None Just as Good.

Ask your druggist for Duncan's Condition Powder, for Horses, etc.

The Conservative Platform

As Enunciated at Halifax and Other Places by
Mr. R. L. Borden, Leader of His Majesty's Loyal Opposition in the House of Commons.

1. Finest appropriation and expenditure of public moneys in the public interest.

2. Appointment of public officials upon consideration of capacity and personal character and not of party service alone. More effective provisions to punish bribery and fraud at

elections, to ensure thorough publicity as to expenditures by political organizations, to prevent the accumulation of campaign funds for corrupt purposes and to prohibit contributions thereto by corporations, contractors and promoters, to expedite hearing of election petitions and to prevent collusive arrangements the withdrawal or compromise thereof, to provide for a thorough investigation to corrupt practices and if necessary to appoint an independent prosecuting officer to enforce the laws so amended.

4. A thorough and complete reformation of the laws relating to the Civil Service so that future appointments shall be made by an independent commission acting upon the report of examiners after competitive examination.

5. Such reform in the selecting of members of the Senate as will make that chamber a more useful and representative body.

6. A more careful selection of the sources from which immigration shall be sought, a more rigid inspection of immigrants and the abolition of the bounty system except under very special circumstances and for the purpose of obtaining particularly desirable classes of immigrants.

7. The management and development of the public domain (in which are to be included great national franchises) for the public benefit and under such conditions that a respectable proportion of the increment of value arising therefrom shall inure to the people.

8. The operation and management of our government railways by an independent commission free from partisan control or interference.

9. Development and improvement of our national waterways the equipment of national ports, the improvement of transportation facilities and subsequent reduction of freight rates between the place of production and market, whether at home or abroad and the establishment of a thorough system of cold storage.

10. The re-organization of the present railway commission as a public utilities commission with wider power and more extended jurisdiction, so as to establish thorough and effective control over all corporations owning or operating public utilities or invested with franchises of a national character.

11. The establishment after due investigation of a system of national telegraphs and telephones under conditions which shall be just to capital already invested in those enterprises.

12. The improvement of existing postal facilities, especially in newly developed portions of the country, and inauguration after proper inquiry as to cost, of a system of free rural mail.

13. A fiscal policy which will promote the production within Canada of all useful articles that can be advantageously manufactured from or by means of natural resources, having due regard to the interests of the consumer as well as to the just claims of our wage-earning population.

14. The promotion by negotiation and other constitutional means of a system of mutual preferential trade within the Empire.

15. The restoration of the public lands to the Provinces of Alberta and Saskatchewan upon fair terms.

16. The unimpaired maintenance of all powers of self-government which have been conferred upon the Provinces of Canada under the constitution.

STATECRAFT OR LUNACY

Mail & Empire

Johnny Canuck is a husky fellow enough, but he will need to add to his strength in order to carry easily the burdens which are in course of preparation for him. The national transcontinental railway is going to cost probably \$200,000,000 or more of which burdethe country's share will be much larger than expected. The Georgian Bay canal project will cost about \$100,000,000 Mr. Graham says the Hudson Bay railway is going to be built soon, and that will cost goodness knows how many millions. Then there is the new Welland canal which Mr. Graham says will also have to be constructed and which will cost twenty-five or thirty millions. For a people numbering six or seven millions these are very big enterprises to be undertaken in a bunch. National optimism, courage and self-confidence are grand qualities, but they should be tempered with prudence.

THE WESTERNER SAYS

Toronto News

There are forty-five creameries and eight cheese factories in Northern Alberta. Wheat is king but the cow is queen.

In two years and a half the number of public schools in Alberta has increased from 847 to over 900. That means that over 350 new communities have sprung into existence in that time.

They have restaurants now at Lesser Slave Lake, while steamers have been so long on the Athabasca and Mackenzie rivers that they bear the names of Hudson Bay Company Governors who are almost forgotten by the present generation.

What, never heard of Pig on Lake? To be candid, neither did some of the rest of us till yesterday, but all the same there are seven swimmers on this little sheet of water near Wetaskiwin, and 500 men at work. Yet some people think this is a treeless country.

To Our Readers

The Chronicle would esteem it a favour to receive any items of local news, general or personal. It is always anxious to give publicity to little incidents likely to be of interest and not calculated to injure feelings or cause unpleasantness.

Around the City

Firemen and Ladies' Hospital Aid are holding a joint picnic on the Esplanade grounds on Thursday August 20th.

Pain will depart in exactly 30 minutes if one of Dr. Shoop's Pink Pain Tablets is taken. Pain—anywhere. Remember! Pain always means congestion, blood pressure—nothing else. Headache is blood pressure; toothache is blood pressure on the sensitive nerve. Dr. Shoop's Headache Tablets—1 so called Pink Pain Tablets—quickly and safely coax this blood pressure away from pain centers. Painful periods with women get instant relief. Tablets for 25¢. Sold by all Dealers.

Mr. E. W. Day held a meeting last evening at Oakeshott School House. Among those present were Mr. Joshua Fletcher, President A.F.A., Mr. Macdonald, Mr. McAllister, Mr. G. Javelle, Mr. J. R. Lavell, K.C., and others. Mr. Day was much impressed by the cordiality of his reception.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and for the relief of painful bleeding—internal, hemorrhoids, either external or internal. Large Jar. Sold by all dealers.

Back in 1886 Campbell's Varish Stains were originated and offered to housekeepers for restaining and refreshing furniture and interior woodwork. The makers claim, and rightly too, that twenty years experience making varnish stains enables them to make a better article than can be made by those new at the business. Ask for Campbell's Varish Stains McCombs Hardware Co. sell it.

Heat prostrates the nerves. In the summer one needs a tonic to offset the heat of the weather. Nerve strength depends on the vitality of the liver with a 48-hour fast beginning to take such a remedy as Dr. Shoop's Restorative. Its prompt action in restoring the weakened nerves is surprising. Of course, you would get entirely strong in a few days, but one day you can actually feel the improvement. Fatigued, listless, spiritless, feeling off quickly depart when using the Restorative. Dr. Shoop's Restorative will sharpen a falling appetite; it aids digestion; it will strengthen the weakened kidneys and heart, typically rebuilding the worn-out nerves that the organs depend on. Test it a few days and be convinced. Sold by Dealers.
